EDUCATION:

Orange Coast College, Costa Mesa CA Expected Graduation: May 2026
Associates of Science in Computer Science | GPA: **3.85/4.00** | 5x Dean's List Recipient
*Currently awaiting transfer acceptance from multiple local universities for bachelor's degree transfer programs

PROJECTS

Artificial Bin-Telligence Costa Mesa, CA
Team Lead / Team Member October 2025 – Present

- Leading a team of 5 in the development of 'Artificial Bin-Telligence': an edge deployed computer vision model fitted to a tri-compartment trash bin, capable of autonomous sorting functions.
- Utilizing a software stack consisting of C++ for Arduino for hardware commands paired with Python for computer vision deployment and model input parsing.
- Utilizing a hardware stack consisting of Raspberry-PI 3B+ paired with Raspberry-PI Ai Camera for edge case vision model deployment, Arduino Nano paired with stepper motors / servo motors for bin sorting functionality.

Math Solver Project (Hackathon Win) October 2025
Team Member / Back-End Developer

- Developed the Math Solver full-stack web application under severe time constraint at the 2025 Annual 'Spookathon' Hackathon hosted at Orange Coast College
- Developed the backend image input processing pipeline in Python, utilizing the Pix2Text Optical Character Recognition (OCR) library to generate a LaTeX translation of user input, allowing for approximately 40% more time efficient model prompting.
- Leveraged the power of Google Gen. Ai through API integration and detailed prompting to ensure an accurate model feedback for the user and provide a structured, step-by-step breakdown of math problems ranging from basic arithmetic up through calculus, and linear algebra.

WORK EXPERIENCE:

Mesa Verde Country Club Costa Mesa, CA
Outside Services Team Member September 2023 – Present

- Maintain the organization and smooth operation of the outside services golf department ensuring a pleasant member experience.
- Keep track of 400+ member golf bags maintaining accurate placement of bags in storage and continuous upkeep of the bag storage facility.
- Foster professional but friendly relationships with hundreds of members ensuring all needs are met for them and their guests in a timely manner.

AWARDS, HONORS & CLUBS:

'Spookathon' Hackathon Win & Scholarship October 2025

- Recipient of a \$500 Scholarship for a first-place win at OCC's Spookathon

IOTA Xi Honors Society – Member September 2024 – Present

OC Robotics Club – Member September 2025 - Present

- Assisting in the software development for the 2026 University Rover Challenge (URC)

RELEVANT COURSE WORK:

Course Work: C++ Programming, Python Programming, Java Programming, Data Structures in C++, Discrete Structures
